

## Appendix C

### BADLANDS NATIONAL PARK THREATENED AND ENDANGERED SPECIES (3/2004)

Species	Federal	State
Gray Wolf ( <i>Canis lupis</i> )	E	-
Bald eagle ( <i>Haliaeetus leucocephalus</i> )	T	T
Osprey ( <i>Pandion haliaetus</i> )	-	T
Whooping crane ( <i>Grus americana</i> )	E	E
Eskimo curlew ( <i>Numenius borealis</i> )	E	E
Peregrine falcon ( <i>Falco peregrinus</i> )	-	E
Black-footed ferret ( <i>Mustela nigripes</i> )	E	E
Swift fox ( <i>Vulpes velox</i> )	-	T
Black-tailed Prairie Dog ( <i>Cynomys Ludovicianus</i> )	C	-
Lined snake ( <i>Tropidoclonion lineatum</i> )	-	E
Eastern hog-nosed snake ( <i>Heterodon platyrhinos</i> )	-	T
Sturgeon chub ( <i>Macrhybopsis gelida</i> )	-	T

**Key:** T = threatened                      C = candidate  
E = endangered

**Note:** There are no known federal or state listed threatened or endangered plant species known to inhabit Badlands National Park, however there are over 100 plant species in and around Badlands National Park that are tracked by the South Dakota Natural Heritage Program (S. Dakota Dept. of Game, Fish and Parks 1998). Of these two are ranked "G3" which is defined as "either very rare and local throughout its range, or found locally (even abundantly at some of its locations) in a restricted range, or vulnerable to extinction throughout it range because of other factors." These species are Vishers Buckwheat (*Eriogonum Visheri*), also known as Dakota Buckwheat, and Barrs Milkvetch (*Astragalus barrii*).
